Hi Students,

Many thanks to all of you for sharing the status report of the project.

Let's start working on the final phase of the project for anyone who is still a step away.

Since many had asked for time for the showcase event , we decided to conduct it by the end of July so everyone can get back to campus from internship.

Prepare a poster with graphs, pictures, and data that explains your results for the event. Please have the poster approved by your guide.

Attaching the sample poster template for your reference.

--

Thanks & Regards,

Sumani
